

SAMPLE OPTIONS

Once your trade account is approved, Meljac samples are available to purchase or to receive on loan for a complimentary review period of 15 days. You will find sample options on the next page.

REQUEST SAMPLES

To request samples, please fill out the Sample Request Form on our website.

If you are purchasing samples, an invoice will be sent to you which you will be able to pay directly through the payment link. The samples will ship once payment has been received.

Please provide a UPS or FedEx # to cover the shipping charges. All samples will ship using the service that has the package arrive by the "Due date to receive samples" indicated on your sample request form. For samples on loan, a return label will also be included in the shipment.

If you do not have a Fedex or UPS # - you will receive a payment link for a \$30.00 flat fee for shipping charges (via

UPS Ground) and a return label will be included with the shipment.

You will receive tracking information to your email once your samples have shipped. Please be advised, it may take up to 24 hours for tracking to appear.

A follow up email will be sent in 15 business days when the samples are due back. Loaned samples must be returned in the condition they were received. To ensure safe transit, please be sure to return the Meljac products in their original protective boxes.

If you need additional time to review the samples, please contact samples@meljac-na.com to extend your loan.

WE OFFER THE FOLLOWING SAMPLE OPTIONS:

1. Finish Samples
2. Product Samples

Based on availability.

II. PRODUCT SAMPLES

Product samples are available to receive on loan for testing and project review.

Due to our extensive finish catalog and numerous customizable plate details, we are unable to keep samples of all possible plate configurations in all of our finishes. When filing out the sample request form - please include the plate details more pertinent for review (for example, if you've already decided on hidden screws with push buttons - include those details on the form.)

We aim to provide samples as close as possible to the requested samples. If we aren't able to provide the product sample in the desired finish, we will also include a finish sample swatch.

Product samples can be ordered and produced to client specifications - price varies based on plate details and a 40% sample discount will be applied to the order. Lead-time is approximately 14 weeks.
